

Dimming Control

SFX Sliders

SFX sliders are an architectural manual dimming control ideal for pubs. The sliders have a comprehensive range of options to allow all possible lighting control.

- 0 to 10V analogue control
- 1 to 10V analogue electronic ballast control
- DMX digital control
- DSI digital control
- DALI digital control

- Stylish and easy to use. 1,2, 3 or 4 way manual slider panels.
- Standard UK double pattress fitting: use 32mm deep back box (not supplied)
- All models finished in mark resistant brushed stainless steel.
- Robust 60mm metal construction sliders
- Symbols indicate minimum and maximum levels which allows vertical or horizontal mounting
- DMX, DSI and DALI 4 way versions available as 3 channels with Master (ie: RGB LED control).
