

LED Tape

Driver Control OT DIM

The driver control OT DIM is an intelligent electronic constant voltage 1 channel 1-10V dimmer control. The smooth and flicker free dimming of the LEDs connected to the output of the driver is adjustable by an external voltage 0-10V DC control.

Product Code	Driver Control OT DIM
Output current (max)	5A
Output power	120W
Input Voltage	10-24V DC
Control	0-10V DC
Dimensions	172mm x 42mm x 20mm
Operating temperature range	-20°C +50°C
IP Rating	IP20
Dimming Range	0.1 to 100%
